

## Episode 100-IIia, Mendeleev

Welcome to the historic 100th episode of Restart. Today, we unveil the secret we promised you: the true Atomic Number of the universe.

Just as the physical world is organized by elements, the spiritual world possesses a specific harmony—a "Periodic Table of Religions." In this episode, we explore the foundation of this table. It is not written based on sects or historical wars, but on the Complete Human. This voice is the miracle of the century. It is time to connect the two wires of wisdom and understand the unity of existence.

**Welcome to the 100th episode of Restart.** Today we want to talk about the Atomic Number—the secret of the Periodic Table of Religions that we promised you—and for now, let's discuss on what basis it was written. Connect two wires in this era of the world, where if you don't have money, if you don't have a television, you can't do a damn thing; yet with two wires, we took over the whole country. Twenty-four or twenty-five million listeners, and those who *must* hear, whose very essence seed must hear, will hear. This voice is a voice that reaches the inanimate—or inanimate being as you call it—and the plants. This voice is a voice that will transform the universe. This voice is the miracle of a century. As the **Complete Humans** have moved forward, with the specific wisdoms that have come into existence, their miracles have differed. The era of turning a staff into a dragon, the era of displaying physical powers in the world is over.

Humans, without realizing it, have had their imaginations shaken and they have changed. The hardship that you and I suffered in this era, especially in the past and especially in this time we are serving you now, we had to suffer this; because we had to understand, you and I were being trained. You and I, the day one thought they were a Christian who loves Jesus and Jesus is close to them and they know God; exactly when they were thinking these thoughts, **Restart** came. When the Jews thought everything was finished and they had fooled everyone, **Restart** came. At a time when Muslims are killing and you are witnessing the Muslim Middle Ages with your own eyes, **Restart** came. **Restart** came to make you and I understand that the universe... The universe possesses only one Periodic Table, a specific harmony containing a deep perspective, and the arrangement of these elements of the universe by the Great Spirit is the Atomic Number. So, on what basis is the Periodic Table of Religions written? It is based on the **Complete Human**; meaning the spirit of the **Complete Human**, meaning that very Atomic Number. And today, more knots will be untied.

Flaunting power... this time is not like the past eras where they could exile or kill some of those, or the kings, who wanted to take Iran toward **Sufism** and **Mysticism**. Now is an era where we want to make the superpowers of the world, with their billions upon billions of dollars, understand that before Iran turns into the Empire of **Sufism**, we told you it would happen, and you can't do a damn thing, and it will happen. This time the miracle is that we said it would happen and it does, because we say to turn upside down; we are the determiners of the universe.

By "we," I don't mean me and you. It is the **Complete Human** and the **Sufis** around him. This is one of the greatest "rubbing-nose-in-the-dirt" moments in human history. What you are hearing now—meaning Iranians, 24-25 million of them have understood, and the rest who know or hear but don't want to understand, or don't know, or don't want to enter such a category at all... listening to a sixty-minute program that has been downloaded 1.6 or 1.7 million times alone, not counting what was distributed via flash drives... It wants to make the world understand this is the miracle of the century.

Well now, the governments of the world, these five or six governments... I want to see—since this is the 100th program, I didn't think we'd reach 100 but here we are—I want to see if you can do any damn thing to stop Iran from becoming the Empire of **Sufism**? Try your hardest. This word isn't for you to think you're some hotshot or not in a foreign country; this is so that those 24-25 million know that whenever Iran reached peace, **Sufism** intervened.

**Sufism** has done a kindness; **Sufism** has entered the ridiculous game of "playing marbles" of the kings. It has been forced to enter the cheapest thing in the universe, which is politics, for the sake of my understanding and yours. Meaning **Sufism**—the greatest, most understanding, most dignified entity in the universe—has lowered itself to the level of a marble-player so that you become human and I become human. And that is why, as I said at the start of the program, I am sorry; we will understand later. Didn't you see that twenty years from now, talking about politics in the **Restart** program was considered the greatest insult to **Restart**? But what can we do, our country is involved...

Does reincarnation truly exist? What truly is the Mendelev Table of Religions? Truly, what secret lies within this? What... All religions fought the "War of the Seventy-Two Nations" and splintered into sects, but they didn't understand the essence of the matter. Truly, why have the people of the world always been called idolaters, polytheists, and infidels? From the perspective of **Sufism** and **Mysticism** ... and they themselves thought they were crying for Imam Reza, or crying for Jesus, or for Moses? Truly, what is the secret in the middle of this?

Why have **Sufis** throughout history tried to make people understand that the "Seventy-Two Nations" is the most infidel type of government? Type of religion... In the old days it was like this, for example, when Plato—well, his name was big, Socrates' name was big—for the first two or three hundred years they made donkeys out of the people fooled them, saying, "Sir, Plato and Socrates said democracy is very good." **Restart** was broadcast in an era two or three hundred years after Plato, telling people that Plato is actually the enemy of democracy. It's true that people now think—some are so dim-witted—they think Nietzsche is godless, but after

**Restart** aired, it said Nietzsche is truly not godless. It's true that some thought Rumi was Sunni, or Rumi was Shia, Sheikh Bahai was Sunni, Sheikh Bahai was Shia, that one said "I think he's Zoroastrian," "I think he's Christian"; and **Restart** came and totally smacked everyone in the mouth, saying these guys are neither shia and sunni sectarian extremists.

They themselves said it... Sheikh Bahai says it, Feyz Kashani says it, all of them... It came and revealed the secret. It is true that in that history they managed to make donkeys of the people and shove democracy onto the universe, then **Restart** aired and said Plato is against democracy, Plato talks about Aristocracy. As soon as they saw people understood, they came and said, "No, he has another student named Aristotle, *he* said this sentence." But do you know why Plato is against democracy? People said no. They said, "Because Plato is a great man." You know, when someone is a great man, you can't ruin him; for example, you can't say Jesus didn't exist. You can't say Muhammad son of Abdullah didn't exist. You can't say Ilia son of Imran didn't exist, you can't say Moses wasn't the savior of the Israelites. You can't delete these, people will stand up to you. So they said, "But since Plato was an aristocrat himself, from an aristocratic family, that's why he opposed democracy because democracy killed Socrates." Meaning, they made donkeys out of the people again. For 470 years after that, 300 years, the stupid people of the world were following a type of government that Mr. Aristotle—the government Mullah, the government priest and rabbi of that era—had announced; and again for four hundred years they fooled the people. Meaning people transformed from the Islamic Republic into a stupid Secularism and kept repeating this until now that I am at your service.

In **Restart**, we announced Ilia son of Imran... the name of Ali is Ilia son of Imran. Ilia means "God is only my God"—shut up! The name, the sentence Ilia means "God is my God," meaning He belongs to no one else. The word Ilia... you see it in foreign movies and books they've written, they used this word. Why did Muslims, Jews, and Christians turn the name of Ali son of Abi Talib into Ilia? Why, right now on foreign TV channels, right now inside Iran, right now in Moscow, right now in London, do they come and discuss Ilia son of Imran, saying the Shahnameh didn't speak of Ilia?

Why do they want to say Hafez didn't speak of it, Saadi didn't speak of it, Rumi didn't speak of it, "Oh, they are Arabs, they are this and that"? Later in **Restart**, we explained that there is no Arab and non-Arab; the **Complete Human** can be a child anywhere, it doesn't matter at all. The **Complete Human** belongs to the universe, not to this stupid little millet-seed Earth in the middle of the universe; he belongs to existence. Why have the books of the sayings of Ilia son of Imran been censored? Because the Bible was censored, because they censored the Quran, because they censored the Torah.

"How did they censor it, Mr. Hosseini?" The book of the Gospel means Jesus himself; the book of the Gospel means Peter after Jesus; so "therefore, in every era, a guardian is present, The test is eternal until the Resurrection". But they wrote a book with their own hands officially, so that when Muslims want to throw people into hell, they can't protest; right in the middle of the Quran, this very Muslim wrote: (*We curse those who wrote the Quran with their own hands*). It actually has a verse, it says it directly. Now, it's true they managed to remove this verse from the Torah. When they were printing their scriptures, they stole from the people of **Sufism** and

**Mysticism**, from the **Sufis**. But in the Quran, where it is written that Iranians—85 percent of Iranians are Muslim now—it is written, explicitly stated: whoever writes it, whoever prints it, we will tear their father apart, punish them severely. so they never forget. All the things I have said in this program, in these hundred programs, were all from the greats and the people of **Sufism**; I expressed nothing of my own. Let's go see what the Atomic Number of religions is. Let's see why Ilia son of Imran's sentences are deleted. Why is Nahj ol-Balagha, a book by Ilia—they say it belongs to Ali son of Abi Talib, and they change the name Ilia son of Imran and censor it?

Very briefly and usefully, today we only want to explain this: What was the secret to arranging the Mendeleev Table? "Mr. Hosseini, it was the Atomic Number." Bravo, Atomic Number. Meaning they said elements are arranged in the Mendeleev table based on the Atomic Number. But was there something else before the Atomic Number? "Yes Mr. Hosseini, there was the Mass Number." Bravo. Then they said when they sat down and wrote elements based on the Mass Number, they saw it had flaws in some places. But when the very great **Sufi** of that era, Mendeleev, came and explained the Atomic Number from the perspective of **Sufism** and **Mysticism**, the world wrote the elements based on the Atomic Number. Two things became clear: Number one: It became clear that the entire "War of the Seventy-Two Nations" in religions is wrong, in elements it is wrong, because they didn't see the **Truth**, meaning the Atomic Number. This is the first thing found in it. But the second thing found in it is that several elements were not in the Mendeleev table, and this **Sufi** announced, "I don't know when the future elements that are supposed to come will arrive. But I know where they fit in the Mendeleev table."

Meaning, we still don't have a predictor in the world of predictive science more predictive than Mendeleev. Meaning he wrote a table based on the Atomic Number, and left 100 spots, 30 spots, 40 spots empty. When he left them empty, the birdbrained scientists asked, "Heh heh, why is this empty? Why is that empty? Fix it, solve your problem somehow. Solve your problem!" What does Ferdowsi mean by this? Who is Rumi? What is Hafez? What is Saadi? Look at what the Mullah says, look at what the Priest says; give your money to the Mullah, give your money to the Priest. Mr. Scientist, Professor, **Sufi**, Philosopher Mendeleev, tell me, what are the names of these elements? He said, "By God, I don't know what they are, I am a **Sufi**. I am explaining now what you need to understand later. I don't know what goes on here, but later scientists will discover elements, then they will realize that here, the place of this hole I left empty, is this element." And the further we go, we reach the point that exactly, 100%, definitely, surely, severely, Mendeleev was right and everyone else was talking nonsense.

**"Fourth was Ali, the pair of Batul [Fatima] / Whom the Messenger praises with virtue."**

The Shahnameh of Ferdowsi... now, outside the country and inside, they really love to delete this poem, but they can't. Because it exists.

**"Fourth was Ali, the pair of Batul / Whom the Messenger praises with virtue. For 'I am the city of knowledge and Ali is the door' / This speech is truly the word of the Prophet."**

Ferdowsi says, "I am the city of knowledge, Ali is the door of knowledge," it is true, and this saying belongs to Muhammad son of Abdullah. Ferdowsi says it, he confirms it.

**"I bear witness that these words are his / You'd say my two ears are filled with his voice."**

Ferdowsi says, "I testify these words belong to Muhammad son of Abdullah; 'you would say my two ears are filled with his voice,' as if my two ears are hearing it." Ferdowsi is saying, "I am hearing it, bro! Whoever talks nonsense tomorrow anywhere in Iran, in Japan, in Italy... smack them in the mouth... I am hearing it and I both testify and I am hearing it right now."

"That this sentence belongs to him."

**"He spoke thus of Ali and simply this / That through him, religion of every kind became strong."**

He said, "Do you want me to tell you the secret of Mendeleev, which will be told more clearly and colloquially later in **Restart**?" They said, "Tell us." He said: *"He spoke thus of Ali and simply this / That through him, religion of every kind became strong."* I say one sentence about Ali and that's it: that through him, religion of *every kind* became strong. Any religion you see came from Ali. "Mr. Hosseini, he wrote something totally different here." Yes, he said exactly that: every kind of religion; every religion in the world implies... which later we see that **Sufis** consider faithlessness to be a religion too; everything is religion and everyone is lying.

**"I am the servant of the Prophet's household / The praiser of the dust at the feet of the Successor"**

The Sage... Here Ferdowsi reveals the secret of **Restart** again. Here, he exactly questions NASA. Who? Ferdowsi. Pay attention, the great **Sufi** Ferdowsi explains beautifully:

**"The Sage positioned this world like a sea..."**

The world... which we later explained in the **Restart** program regarding the sky of you and me... the skies, when they say "sky," there is a sky called the one you and I are in; this sky goes up to the beginning of the Big Bang. How many of these Big Bangs are there? Billions upon billions. You saw the video I posted in the program from NASA—of course, NASA was so dim-witted that they understood this thousands of years later; this itself indicates stupidity, meaning it is a document of the stupidity of the world's scientists. Listen, my dear. Listen, don't breathe a word, for if you breathe, it goes into your soul. Listen and see that Ferdowsi said the same thing: ***"The Sage posited this world like a sea / He raised a wave from a gale."*** He says a world existed, a sky... he is talking about the Second Sky, there was a sea there and a wave came, and these bubbles you see and these Big Bangs, a wave came.

**"Like seventy ships built upon it / All sails hoisted high. Muhammad inside it with Ali / The same household of the Prophet and the Guardian. The wise one who saw the sea from afar / No shore visible, and no bottom to be seen."**

He says after you die, you enter the world of the Second Sky; you see billions upon billions of bubbles from the impact of a wave in a gale, where the name of each of these bubbles and tiny droplets... its name is a Universe. So the wave and the sea and all this they keep talking about, remember Ferdowsi said it too. We see that Mr. Ferdowsi spoke of Ali. "Oh, well if that's the case, then Islam is right, isn't it?" No, we want to reveal something else today. All religions twisted it. Ilia is not a word that belongs to now; why did they put Ali son of Abi Talib in place of Ilia son of Imran for them? So that you wouldn't discover this secret, wouldn't know that the name Ilia means Ali has *a/ways* been. Meaning they stuck the word Ilia to Elias, because Elias said, "I am Ilia." They said, "Who are you?" He said, "I am Ilia." They said, "What does that mean?" He said, "God belongs only to me. Whoever talks about God, smack them in the mouth..." He said the same about Elias. The Syriac term for the name of Ali son of Abi Talib... Well, I don't deal with that. They also call Khidr, who is always alive, Ilia. You too, in your prayers... Muslims. Since prayers are stolen anyway, with every Send blessings upon Muhammad, you're in the middle of hell; every Send blessings upon Muhammad.... you go down. I explained in that program, every time you cry for Jesus, they tear your father apart. Because you don't know Jesus at all, you don't know who he is. They called Khidr a being who is always alive; now the story of Khidr becomes clear here too. They said Khidr is one of the prophets who is always alive; Khidr's name was Ilia. So now the name Ilia appears in the Torah, appears in Islam, appears in Christianity, it was in Zoroastrianism too; in the eras, the name Ilia belongs to something like 108,000 years. But what do these people say? All of them say a simple sentence. They say, "We are God." Meaning when we look, we see that Christians who believe Jesus is God are much closer to **Sufism**; meaning contrary to your imagination that you think Jesus isn't God, those who say Jesus is God are closer. Dervishes are the same way, they have been throughout history; Jewish Kabbalists are also sort of like this. That "Yahweh Yahweh" they used to say is these same people. Let's go see what this is? What is inside it? Let's go see who spoke about it.

**Feyz Kashani:**

**"If you obey the God of Ali with your soul / Through the blessing of obedience, God becomes your Guardian. Becoming a Prophet is not possible, for Prophecy was created / But you become a Guardian if you follow Ali."**

Muslims have a prayer, they say **"Or Ali, or Ilia, or with Hasan, or with dust"** They are saying all of them. He says Ali is Ilia. Whether "With Hasan" or "With dust." Meaning whether he is with Hasan, meaning his son, or with dust, meaning what? Meaning with dust, meaning being the Father of Dust, meaning being the Dad of Dust. Feyz Kashani says it.

**Saadi:**

**"Who has the strength and gall to describe Ali? / The Compeller (God) spoke 'هل اتى' in his praise."**

What does Compeller mean? We told you about a realm, the Realm **of power**. Now I am saying this one by one to open the table. He says, who has the strength and gall, meaning the courage,

to talk about Ali? Look at how he talks about Ali. Pay attention, he doesn't come and say, for example... he doesn't say Ali is a good guy, Ali is very kind; no, he says God spoke about Ali. Grab His collar [challenge God if you dare]... pay attention. He says God spoke about Ali, grab His collar, catch Him. *"Who has the strength and gall to describe Ali? / The Compeller spoke 'هل في' in his praise. / The force-tester of the Fort of Khaybar, whose bindings / broke into one another by the arm of 'لا فتا' (There is no hero but Ali). / A man who tied his armor in front during battle / So he would not turn his back to destiny before enemies."* Because Ali always tied his armor in the front, his back was open. They asked, "Why don't you put armor on your back?" He said, "I don't turn my back to the enemy for them to hit me."

And crying and pleading... Ferdowsi cried and pleaded, wailing. *"Ali, O Homa (the mythical) of Mercy, what sign are you..."* Okay, they said it in order, in order from ancient times until now in these 1400 years, there has been a dangerous name. Even in the stories told about the spiritual ascension—meaning Muhammad went to spiritual ascension—Muslims themselves say a hand came there, he recognized this hand, it gave him an apple; this is a story. We are currently just talking about it. And when he returned, he understood that this hand was Ali's hand; meaning Ali gave him the apple. He was talking to God, a hand came out and gave an apple. There has been no **Sufi** in history in these 108,000 years who did not mention the name of a being called Ilia, and in every era, the godless, the godly, religions, governments, left and right wanted to change the names. This Ali son of Abi Talib has nothing to do with Ilia in their view. Who is Ilia? This is the question. Who are they talking about at all? About Ali? Meaning they are talking about this Ali of the Muslims? What is this Ali at all?

**Hafez** says:

**"If fortune helps, I will grasp his hem / If he kills me, oh what joy! And if he kills me, oh what honor! Hafez, if you step on the path of the Household with truth / The zeal of the Constable of Najaf will be your escort."**

He talks about Ali, he says everyone knows the Constable of Najaf. So this one also spoke about Ali? So this Ali... when was Ali born? Mr. Hosseini, Mr. Hosseini, when was Ali born? What does this have to do with the topic?

**Attar:**

**"O boy, you have no sign of Ali / You only know 'A' and 'I' and 'L' (the letters) of Ali."**

Attar says... he says "O boy," meaning this child... little boy, my son, little one, honey, my honey. Who is he saying this to? To the Grand Ayatollah. This is about Muslims, meaning to the biggest of those who issue religious legal opinions, he says, "Hey my son," *"O boy, you have no sign of Ali / You [only] know 'A' and 'I' and 'L' of Ali"*; when Ali's name comes up, you think it is just A, L, and I.

**"You are restless for the love of your own life / He sits waiting to sacrifice his life. If anyone from the companions was killed / (Ali) would grieve greatly. Saying 'Why**

**did I not also die in battle?' / Dear life became despicable in my eyes. Master, you said what has happened, O Ali / your destiny is inevitable and ready for you already O Ali..."**

Now... so this one also spoke about Ali. It's interesting, huh? Everyone spoke about Ali.

**"From East to West, if there is an Imam / The Commander of the Faithful, Ali, is the end of it."**

Attar says... look, this guy isn't a birdbrained scientist, listen my dear, this isn't, for example, the president of a country, a king of a country, this isn't Aristotle, bro, listen! Attar. Attar. The whole world, in terms of physics, math, astronomy, are confused by Sheikh Bahai, confused by Attar, confused by Khayyam, the Master of Speech Ferdowsi... they are confused by Sage Abolghasem Ferdowsi. Attar, Attar... this is Attar's document. Attar, do you understand? If you don't understand, bang your head against the wall, you still don't understand. Attar... when Attar's name comes up, everyone shuts up, they stand at attention. He says, *"From East to West, if there is an Imam..."* If in the East and West throughout history an Imam has come, *"The Commander of the Faithful, Heydar, is the end of it."* This Commander of the Faithful is Heydar. Period. Now you, Shia, are smiling, right? You're going to get screwed in twenty seconds. Listen, don't listen, don't think this is about you, you yourself aren't Shia, you yourself are a birdbrain, listen...

Now it's so much that I don't know anymore! We look and see that all of these, in order, when they reach Ali, they beautifully throw in the towel, drop their shields, and go completely silent. They are talking about something, talking about a being. Muhammad son of Abdullah, when he was in the Cave of Hira, didn't know that the **Complete Human** sent Gabriel. He reviews Muhammad son of Abdullah again from the start, he turns thirty-nine years and two months old, the Mission happens; meaning the mission these guys celebrate happened nine months prior. Happy, he smiles, "So I am commissioned now to go tell the people?" He said, "No sir, you can't say." He said, "Why?" They said, "Because you haven't reached forty years yet, you must wait another eight months." He goes to spiritual ascension, they say he returns, he sees the hand. Who is this? When he returns, a rumor spreads that Muhammad son of Abdullah said, "I went to spiritual ascension with my body." I explained spiritual ascension to you that time, spiritual ascension means this shuttle spacecraft that goes up, it is 'Ascension'. Then they joke, "You went up with this very body?" He said, "Where is up? Where is down?" *"We are from above and we go upward."* What is the topic? Tomorrow or the day after, something bad happened where Muhammad son of Abdullah himself jumped. One of the companions came to Muhammad son of Abdullah and said, "Sir, forgive me, I was a bit... you know." He said, "Go ahead." He said, "Last night Ali son of Abi Talib was at our house, I was upset that we couldn't host him well." Muhammad laughed loudly and said, "Are you joking?" Before he finished speaking, the guy next to him announced—Sunnis know this and Shias know this too—and the guy next to him announced, "I didn't want to say, it was a secret and all, but Ali was at our house last night." Then Muhammad laughed again and said, "Your jokes are attractive, Ali was at my house last night."

Meaning copy-paste of forty bodies. Meaning he questioned the spiritual ascension, this means this. Meaning he wanted to make them understand that... spiritual ascension with the body... we perform forty spiritual ascensions with the body simultaneously. Who is this? If you think Ali son of Abi Talib is the son of Bint Assad... you are delusional. If you think Ali belongs to you... Shias, you are completely delusional. Who does this Ali belong to? Why did everyone mention his name and everyone talk about Ali? Let's go to Ali son of Abi Talib himself, see what things were deleted. Remember I told you something, in Nahj ol-Balagha I spoke about the dog and it was deleted, things he said were deleted, very important points were deleted. Every word Ali, son of Abi Talib said was deleted. Ali son of Abi Talib also has one sentence, very interesting, let me read it for you: *"O Human."* He talks about humans. *"Your medicine is within your own existence..."* He directly says that whoever goes to the doctor knows right from the start that he has a problem with spiritual ignorance, his medicine is inside himself while you do not know.

This sentence is from Ali son of Abi Talib of the Muslims, Ilia son of Imran in Nahj ol-Balagha; meaning a being born 1400 years ago, it was said, deleted, censored by governments and religions, but it existed, this sentence was said here. Who said it? Ilia son of Imran said: *"O Human, your medicine exists within you while you do not know, and your pain is also from yourself but you do not see; thus every pain and cure and medicine is inside you yourself."* He speaks to the human, meaning to me and you. *"Do you assume that you are a small entity?"* Do you think just this physique, Mr. Hosseini, 75 kilos, 80 kilos? *"Do you assume you are a small entity while a vast world is hidden within you and you do not see? O Human, you are a clear book through whose letters every hidden thing becomes manifest."* He says every human is a book, the human is a book, *"Yes, the human with the **material realm** is **The material realm**; with the **The angelic realm** is **The angelic realm**; with the **realm of power** is **realm of power**."* Ilia, son of Imran, reveals a great secret in Nahj al-Balagha. He says the only being in the universe who, in the world of **The material realm**—which I explained to you means anything that has time in it, whatever has time in it is the world of **The material realm**, whatever has time, meaning what? It came into existence, meaning it was built, meaning it is going to be built, "we are going to see" as soccer players say, time is in it—he says whoever is like this... let me tell you... that has time in it is **The material realm**. He says the only being that is **The material realm** with the **The material realm**, is the human; is **The angelic realm** with the **The angelic realm**, is the human; and is **realm of power** with the **realm of power**, is the human. Meaning the angels you see in the universe that they say "Angels," all religions say He came with an angel, the angel Gabriel and Israfil and such... Gabriel and Israfil and such who are the greatest angels, religions themselves say there are no greater than these. Gabriel and Israfil and Michael, all these names that are great, they can go into the **The angelic realm** realm, they can go into **The material realm**, they cannot go into the **realm of power**. But the human—meaning you and I—can be like **The material realm** in **The material realm**, can be in **The angelic realm** at the same instant we are in **The material realm**, and inside **The angelic realm** become **The angelic realm**, enter the **realm of power** become the **realm of power**. Well, this questions everything. If we want to talk to you about this sentence, it questions everything. But what does Shah Nematollah Vali say? We are slowly going to reveal that a few people throughout history, one of whom was Socrates, a few people throughout history revealed the Mendelev table and this great secret, but many didn't know.

**Shah Nematollah Vali:**

**"The Man of Men is the King of Men (Ali) / In every state, he is the man of the field. In Guardianship, he is the Guardian and the Governor / He is the Sultan over all the cosmos."**

He says "Man"—remember we said there is no man and woman in **Sufism**, boy and girl... everyone is female, meaning I am female now, you too who are a daughter listening to the program are female; the "Man" is only one. He says: *"The Man of Men is the King of Men / In every state, the Man is that man / In Guardianship, he is the Guardian and the Governor / He is the Sultan over all the cosmos."* Shah Nematollah Vali opens a very important secret, he says over all the cosmos that exists in the world, this Sultan, the Sultan is *him*. Meaning the same things said in **Restart**. Shah Nematollah Vali officially announces:

**"The Master of Saints is Ali the Guardian / He for whom the world is the body, and he is the Soul."**

He announces directly and uniformly that the world, the entire universe, is his body and he is the Soul. He says there exists an Ali whom we do not know. Shias think this Ali is the same Ali son of Abi Talib, Christians think Christ is the Son of God, Dervishes say Ali is the Son of God, Ali is the essence of God, **Sufis** say God is Ali, Ali is not God, God is Ali, Ali is not God... I don't understand what happened. Kabbalists in Judaism say the same thing in a way. Jesus says "I created the world," Moses says "I created the world," Hafez says "They were kneading the clay of Adam, I was there," Rumi says "bro, I was watching and fixing things before the Big Bang." All of these reveal secrets that are very interesting for you to know: on what basis is this Mendelev, meaning the table, written?

**"Although I called him the Soul of the World / I spoke in error, for he is the Beloved (Soul of Souls)."**

Now Shah Nematollah Vali goes a bit further, he says Master of Saints means the leader of all Guardians. Whatever you see in the world, every **Guardian** in the world, as Rumi says "So in every age a Guardian stands," meaning what? Meaning right now a **Guardian** exists, before him a **Guardian** existed, and after him surely a **Guardian** exists like a rosary, like a rope stuck together—Rumi, right? He says, "Do we see all these?" Yes sir, we see. He says the Master of Saints, their leader, their mister, above them is Ali. *"The Master of Saints is Ali the Guardian / He for whom the world is the body, and he is the Soul / Although I called him the Soul of the World / I spoke in error, for he is the Beloved."* He speaks the words of Christians; he says if I said this Ali—now who is this Ali? This Ali is the Soul and such—I made a mistake, I spoke in error. He is the Soul of Souls. Soul and Soul of Souls means **Hu** himself. "Mr. Hosseini, we didn't understand now, so all Guardians are Allah, who is **Hu**?" Shah Nematollah Vali says: *"The Master of Saints is Ali the Guardian / He for whom the world is the body, and he is the Soul / Although I called him the Soul of the World / I spoke in error, for he is the Beloved."*

Without the Guardianship of Ali, you will not become a **Guardian**. Muhammad, you would never reach Guardianship without the Guardianship of Ali, Muhammad... "Mr. Hosseini, at the time of Muhammad, Ali was a child!" Sir! Jesus, you could never become Christ without the Guardianship of Ali. Who is Ali? Here we want to reveal the secret of who Ali is. If you have a hundred thousand proofs, if you have reason for a hundred thousand years, you can never become a prophet. Shah Nematollah Vali is saying this to everyone, he says the **Complete Human** about whom one can never speak throughout history, pay attention. Rumi throws everything into disarray. Rumi reveals a secret that can no longer be spoken of. Rumi says the Periodic Table of Religions exists because the people of the world did not understand the story of Adam and Eve in religion.

I explained once in previous programs that God has no concept without the human. "Mr. Hosseini, can we understand what that means?" Meaning if numbers have no concept without me—Infinity. Meaning what? Meaning until I am born and understand one, two, three, four, five, how can I understand infinity exists and how can I understand that infinity means go up one, two, three? So until I am born, we don't understand infinity. Rumi announces that a great secret lies hidden. The Mendeleev table is this: two beings existed in the universe named **Hu**; after **Hu**, a being was created whose name was Ali, meaning Ilia. And this Ali is not Ali son of Abi Talib; you yourself are saying Ali son of Abi Talib, Ali the son of Talib. What does Rumi say? He reveals a secret that is very deep. He says **Hu**, in order to know Himself to the world, initially and fundamentally created a being named Allah. The name of this Allah was Ilia. The name of this Ilia is that same Ali; Ali basically, the word means "Name"... that's why we say, was Ali son of Abi Talib's name Ali before? Muslims say "No sir, it wasn't, he put Ali on him." Meaning what? His name wasn't there before. Look, suppose I say "Hendululu"... "Hendululu" never existed. They name children "Hendululu"... whereas Ali son of Abi Talib's name is Ilia son of Imran, titled Ali.

The Atomic Number, the Mendeleevian table of the universe is written based on the Atomic Number named Ilia, and one of these Ilias is Ilia son of Imran. Another one of these Ilias, Rumi says, another one of these Ilias is Moses, another one of the Ilias is Jesus. He says a spirit existed, a being existed whom **Hu** created, and to put humanity on the path, He came and updated this spirit He created in different bodies. Meaning **Hu** created a being, put it into Adam, Adam came into existence, and inside Adam there existed a spirit whose name was Ilia. But in the body of Adam... a spirit existed that the Virgin Mary, as friends say, created Jesus, so what is the name of Jesus's father? Ilia. What is your own name? Ilia. What is Moses' name? Ilia. What is the name of Moses' child? Ilia. What was the name of Moses' dad back then? Ilia. What was the name of the World of **The material realm** of the universe? Ilia. What was **The angelic realm**? Ilia. Who was this being who came in different periods? And that is why Hindus believe in reincarnation, they say "we go and come back," whereas the secret is not in this; the secret is that the primary spirit **Hu** created and breathed into a being named Human, the name of that spirit before time and the universe was a being named Ilia and he has always been. Rumi reveals this and relieves all the people of the world and takes care of all religions.

**"As long as the form of the world's connection existed, Ali existed / As long as the print of earth and time existed, Ali existed."**

And governments and religions deleted this poem thousands of times, but it still exists. So, let's review again, who is Ali son of Abi Talib? Mr. Shia, he is Ilia who came in the son of Bint Assad. Who is Muhammad? He is Ilia. Two Ilias? Forty Ilias were at people's houses in one night. This is a spirit that is only **Hu**. That is why Jesus says "I am God," he speaks correctly; that is why Hallaj says "I am the Truth, it is me daddy, it is me, he speaks correctly. That is why Shah Nematollah Vali says: *"We turn the dust of the road into alchemy with a glance / We cure a hundred pains with the corner of an eye"*; It is Me. But **Sufis** say "We were present and we performed the power given to us." Meaning what? Meaning gravitational acceleration says: "I am the one who held the people," it speaks correctly; intermolecular force says "Sir, I am the one who held the people," it speaks correctly. Intermolecular force says "Sir, from the beginning of Earth's creation, I was there," it speaks correctly. Centrifugal force says "Sir, if I wasn't there, the moon wouldn't orbit this at all. I was there," from the beginning everyone says, it was true. Gravitational acceleration says "Sir, by God, from the beginning of creation: *'Last night I saw angels knocking at the tavern door / They kneaded the clay of Adam and cast it into the mold'* I was there." Hafez says it, gravitational acceleration speaks correctly, the soil says "Sir, by God, from the time the Earth existed, I was there," it speaks correctly. Air says "Was I there too?" They say "No, you came later, listen, you weren't oxygen," they all told this secret. So Mendeleev is written based on the Atomic Number of Ilia. This was a spirit in different beings until now. In the name of God, the Compassionate, the Merciful, we start from the beginning. Who is the **Complete Human** now? Is it Ilia, son of Imran? No, Ilia is the son of someone else, but he is that same Ilia.

And this has always been, Rumi says it has been so that the people of Earth would be tested, and some of this Ilia in some bodies had miracles like Moses and Jesus. But the **Complete Human** of now both kills and resurrects, the **Complete Human** of now has Noah's Ark in his hand, has Moses' Staff in his hand, is Ilia son of Imran too; because he is the same one who has been from the beginning until the end. The secret is in this. Religions wrote based on the Atomic Number, meaning Ilia son of Imran is written on this basis. Meaning Ilia went into Adam, they threw Adam out of Paradise, then he went into Seth. The next person was Seth, he was Ilia too. That is why those who were in **Sufism** and **Mysticism** throughout history, when they wanted to find the **Complete Human** of their own era, they would get confused in dreams, and sometimes they saw in dreams that the Virgin Mary has a husband, his name is Ilia, his name is Ali, his name is Moses. And Rumi expresses:

**"As long as the form of the world's connection existed, Ali existed / As long as the print of earth and time existed, Ali existed. That fortress-conqueror who at the Fort of Khaybar / Tore it off with one attack and opened it, was Ali."**

**"That proud hero who, on the path of Islam / Did not rest until the job was set right, was Ali."**

That's right, Islam was basically Ali altogether because it's **Restart**, in every era a human exists who is the **Complete Human**, his name is...

**"The King who was Guardian and Successor was Ali / The Sultan of generosity and kindness and bounty was Ali."**

Completely correct. It was Ali.

**"The secret of both worlds, all that is hidden and visible / the truth of Tabrizi who revealed it, was Ali."**

Do you know why I say "My Shams and my God"? No you don't know, because he is Ali.

**"That prostrating mystic whose door's dust, in value / Surpassed the pinnacle of the Throne, was Ali."**

"Prostrated by Angels" starts from the beginning. Prostrated by Angels, remember the religious ones say He created humans and then said prostrate? He says yes, he says:

**"The one prostrated to by angels, which became Adam, happened because of Ali / Adam was like a Qibla, and the prostrated-to one was Ali."**

Meaning a spirit existed named Ilia. Why did He tell everyone to prostrate to Adam? Because the spirit of Ilia was in him. He says God breathed into a being named Adam then said prostrate to Adam? He says no, to Ali. He says after Adam came to life himself, whom did he prostrate to? To himself, meaning to Ali. He opens the secret wider:

**"Both Adam and Seth and Idris and Elias / Both Saleh the Prophet and David, were Ali. Both Moses and Jesus and Khidr and Job / Both Joseph and Jonah and Hud, were Ali."**

**"Moses and the staff and the White Hand and Prophecy / That which he showed to Pharaoh in Egypt, was Ali."**

And the secret is worse than this, we will explain in the next program; whoever kills the **Complete Human** of this era is **Shimr** (the killer of Imam Hussein). Because the **Complete Humans** throughout history came one after another like a rosary, and Rumi says all of these are Ali, and this Ali is not Ali son of Abi Talib. Ali son of Abi Talib is Ali too, Jesus is Ali, Moses is Ali. Why has this happened? Because the evolutionary course is supposed to take place. And why from the start did a being named Spirit, named Ali, come into Adam until the **Complete Human** of now? Because *"We are from above and we go upward / We are from the sea and we go to the sea."* Thanks for listening to this program. The secret of the Mendeleev Table of Religions is Ilia. Sometimes he is Imran, sometimes he is Moses, sometimes he is Jesus, and sometimes he is the Fire that tells Moses: "I am your God." Farewell.
